## BRITISH SHERMAN MK 1 ARV CONVERSION KIT For 1/56th scale (28mm) SHERMAN

THIS WAS A SIMPLE CONVERSION OF THE US SHERMAN TANK INTO A RECOVERY TANK BY THE BRITISH BEFORE THE NORMANDY LANDINGS.

THE TURRET WAS REMOVED THE SPACE WAS PLATED OVER AND A SMALL TWIN HATCH WAS FITTED IN IT'S PLACE.

VARIOUS RECOVERY ITEMS WERE ADDED TO THE HULL LIKE TOW ROPES, AN 'A' FRAME, TOWING ARMS, WOODEN BLOCKS AND OTHER EQUIPMENT. USED IN VEHICLE RECOVERY. IT HAD NO WINCH HOW EVER, UNLIKE THE LATER MK 2 VERSION.

NORMAL CONVERSION WAS ON THE M4A4 (SHERMAN V) HULL.

THE VARIOUS STOWAGE IS A GENERAL SET AND EACH RECOVERY CREW WOULD ADD MORE ITEMS AND STOWAGE COULD BE RE-ARRANGED ACCORDINGLY. WE ALSO SELL A SEPARATE STOWAGE PACK.

THE ADD ON KIT SHOULD FIT ANY SUITABLE 1/56th SCALE SHERMAN AND IS SHOWN HERE FITTED TO THE ITALERI/WARLORD M4 HULL.

ONE OF A NUMBER OF 1/56TH (28mm) ADD ON CONVERSION KITS AVAILABLE FOR WW2
