T48 (SU57) HALF TRACK CONVERSION FOR PSC M3

THE USA DESIGNED A SERIES OF SP GUNS ON THE HALF TRACK CHASSIS.

THIS CONVERSION IS THE T48 WHICH WAS A BRITISH 6PDR/57MM A/T GUN MOUNTED ON AN M3 CHASSIS. THE USA NEVER USED THEM IN COMBAT.

THE BRITISH HAD SOME OF THE PRODUCTION RUN AND TOOK OUT THE GUNS AND USED THE HALF TRACK FOR COMMAND AND APC.

THE RUSSIANS WERE THE ONLY ONES WHO ACTUALLY USED THEM AS INTENDED IN COMBAT ON THE EASTERN FRONT IN WW2.

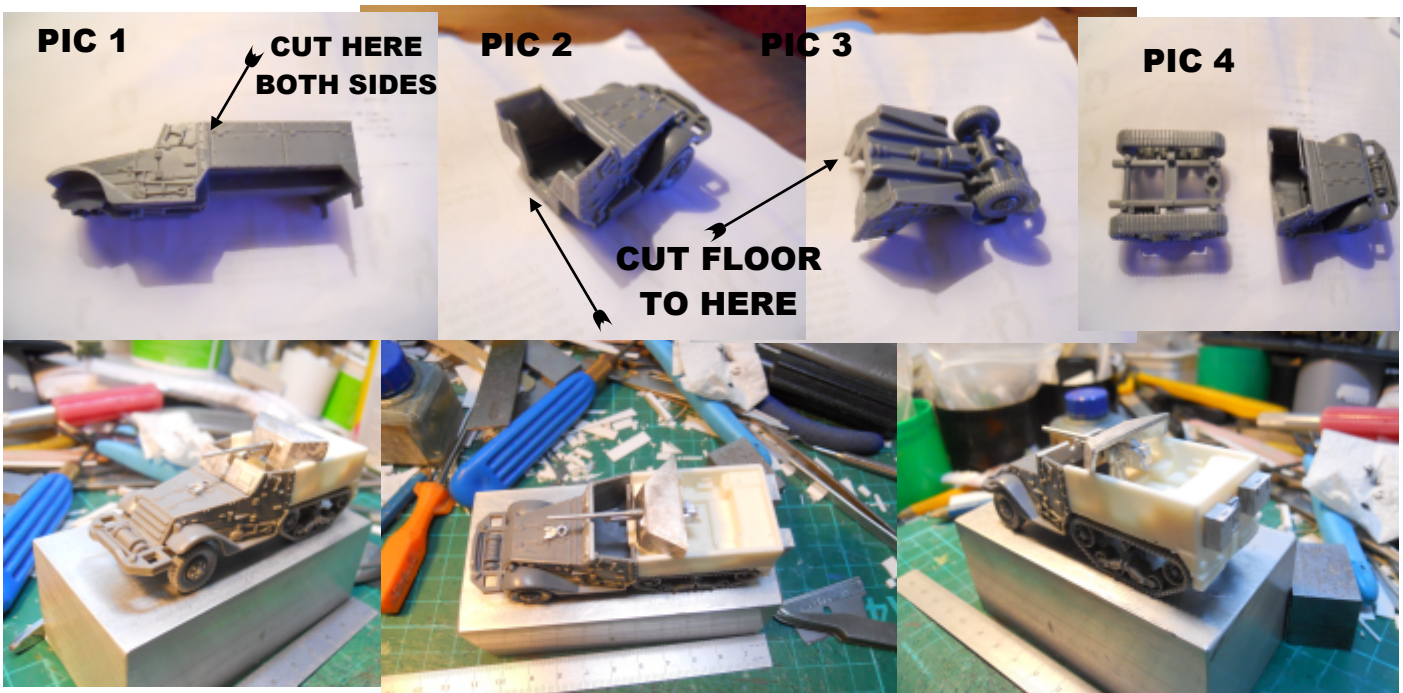

THIS CONVERSION KIT IS DESIGNED FOR THE PLASTIC SOLDIER CO M3 HALF TRACKS, IT MAY FIT OTHER MAKES.

ASSEMBLY NOTES:-

AS THIS KIT REQUIRES SOME CUTTING OF THE BASIC PSC BODY AS SHOWN IN PIC 1 THERE IS A GROVE ON THE BODY TO FOLLOW.

CUT THE FLOOR FLUSH WITH THE REAR OF THE CAB AS IN PIC 2 & 3.

THEN FIT THE FRONT AXLE AND WHEELS THEN YOU ONLY NEED THE REAR TRACKS AND CHASSIS, (AS IN PIC 4) TO FIT TO THE BOTTOM OF THE NEW RESIN BODY, THEN FIX THE BODY TO THE REAR OF THE CAB.

IF YOU HAVE SPECIFIED THE RUSSIAN HEADS FOR THE DRIVERS YOU WILL NEED TO REPLACE THE DRIVERS/CO-DRIVERS HEADS WITH THE ONES SUPPLIED IN THE CONVERSION KIT.
